Code	Product Description
SM-90 D9808000	Grinding and polishing machine. Large lamellar grinding wheel. Convex grind. High speed performance.
SM-100 D9807000	Grinding and polishing machine. Adjustable belt grinding Arm. With different areas on the Belt for convex and v-shaped grinding. Complete blade polishing.
SM-140 D98240001	Water cooled belt grinding and polishing machine. Rapid water cooled grinding. Polishes knife edge. Robust S/S housing. Pre-tensioned belt.
SM-110 D9820000	Water cooled grinding and honing machine. Holding magnets for grinding angle. Low knife consumption grinding. Reversible grinding wheels.
SM-111 D9821000	Water cooled grinding and honing machine. Holding magnets for grinding angle. Low knife consumption grinding. Reversible grinding wheels. Honing wheels. Buffing/polishing wheel.
SM-160 D9830000	The Universal water-cooled Grinding Machine. Stainless Steel. Versatile can be used on cutter blades, cleavers, knives and other utensils. Stainless Steel construction. Fast belt grinding and lamellar honing water cooled. Buffing wheel. Adjustable water cooling. Range of accessories available.
